AWARDS & LEADERSHIP

First Prize, Design 360 March '17

Won IIIT Delhi's bi-annual design hackathon for designing Faux, an app that helps people detect fake news.

Runners up, Design 360 August '17

Second prize at IIIT Delhi's bi-annual design hackathon for designing an Internet Banking system with a focus on UX.

Organiser, Delhi Dribbble Meetup March '16

Organised a Dribbble meetup for designers in New Delhi.

Organiser, HackIndia April '15 - July '15

Designed branding elements used in social media posts, t-shirts, posters, standees, name tags, etc. for one of India's first large scale hackathons.

Moderator, HH Design July '15

Moderator for 17,000+ member student-oriented design community on Facebook.

WORK EXPERIENCE

Product Designer (Remote), Foodcache

March '17 - February '18

- Worked on branding and UI/UX for a food inventory management app aimed at reducing food waste.
- Created iOS, Android and Apple Watch designs in Sketch, prototypes using Invision & design handoff with Zeplin.
- Designed and coded a landing page for the app.

Product Designer (Contract), Fitso

October '17 - December '17

- Worked on an updated visual design for Fitso for iOS, created mockups and a design system in Figma.
- Created prototypes for new animations and interactions using Principle.

Product Design Intern, Zomato

December '16 - January '17

- Conducted qualitative user research, interviewed primary and secondary stakeholders to gain insights into the problems with the systems Zomato was using to collect restaurant information.
- Streamlined process of collecting data from restaurants using field research and inputs from collections & engineering teams.
- Redesigned Zomato Collect, an internal app used to collect data. Created prototypes and conducted usability testing.
- Worked on designing an iMessage sticker pack for the Zomato iOS app.

Freelance Design Consultant

August '14 - October '17

- Worked with 30+ startups and small businesses over the past 4 years to solve design challenges.
- Diverse experience in product, interface, user experience, branding, graphics and print design.

Designer, Indian Prime Minister's Office App

June '15 - August '17

- Worked with the PMO and Google design and engineering mentors to design and build the official app for the Indian Prime Minister's Office.
- Designed for a target audience of every Indian - support for 10 languages, accessibility features, optimisation for old devices and slow connections.
- Worked with a team of 6 on maintenance and updates for 1 year, the app has 400,000+ users and a 4.6 rating on Google Play.

Product Designer (Contract), Billions in Change India

June '16 - January '17

- Designed an online volunteer platform and social media presence for Billions in Change as they set up operations in India.
- Created mockups and clickable prototypes for Android, iOS and mobile and desktop web.
